

The Skill Development Initiative (SDI) Scheme is being implemented by Ministry of Skill Development and Entrepreneurship in the country through the network of Vocational Training Providers to develop skilled manpower. The skill acquired by the persons through formal training or informal training is assessed by the Assessors of Assessing Bodies. At present there are 2238 Assessors who have qualified the Assessors Evaluation Competency test. Under ACE test, theoretical knowledge and practical skill of the assessors are tested. Tested charges are paid by the Assessing Bodies to whom they are engaged. Assessors are being paid by the Assessing Bodies for conducting assessments. In order to increase the number of Assessors and to enhance credibility of assessments, it has been planned to hire more number of assessors having industrial background. Preference will be given to those persons who are retired from the industry. Hired persons are required to undergo Assessors Competencies Evaluation (ACE) test and persons who clear such test will be allowed to conduct assessments. In this regard, interested persons are requested to please send the applications duly filled as per the enclosed format through mail **[ace.dget@gmail.com](mailto:ace.dget@gmail.com)**. After short listing the applications, the list of applicants will be uploaded on the SDI portal so that empanelled Assessing Bodies may hire them. Thereafter, Assessing Bodies will depute persons for ACE test on their own expenses and Assessing Bodies will depute persons who have successfully passed ACE test for assessments.
